Product Name :	**Product Code :**
Light Sensor and Transistor Learning Kit	NLAB-SCHOOLABS16007

Description :

Light Sensor and Transistor Learning Kit

Technical Specification :

To study the working principle of a light sensor or a photosensitive resistor. Learn to use transistors as switches. Through simple lamp circuit activities, motor on/off with photosensitive resistor, lamp on/off circuit with transistor, building light sensor from LDR and transistor. and activities to assemble light sensor robots
