

Product Name : 12 Channel ECG Machine	Product Code : NLABMEDICAL-M3380004
Description :	
12 Channel ECG Machine	
Technical Specification :	
Simultaneous acquisition of 12-lead ECG data, real-time recording and printing of 12-channel ECG waveform.	
Graphic display of 12-lead ECG waveform.	
Built-in analysis software of age which assures accurate analysis result.	
Auto-measurement, auto-interpretation, waveform playback and storage of ECG data.	
R5232 and USB interface cope with data-share or remote data management requirement.	
Option wireless function makes more convenient communication with PC.	
User friendly operation system contributed by built-in HELP function.	
Literal and graphic operation interface.	
Powerful filters to minimize interference.	
Heart rate measurement and pace-maker protection circuit.	
Multi-printing formats: manual/automatic, standard 12 channel, 3 channel plus 3 rhythm lead, 6 channel, 6 channel plus rhythm lead, 60s analysis of arrhythmia, R-R histogram, trend graph.	
AC, DC or built-in lithium battery power supply, alarm of battery weak and lead-off.	
Comfort and durability contributed by silicon gel keypad.	
Tremendous ECG data can be saved in built-in SD card ECG 330G.
