

Product Name :
Absorption Refrigeration Trainer

Product Code :
NLAB-ENGINEERINGLB103002

Description :

Absorption Refrigeration Trainer

Technical Specification :

They are also useful in remote locations far away from the common availability of electricity and can be easily adapted to LPG, kerosene and solar power.

Larger systems are also suited for industrial use.

The Absorption Trainer familiarizes students with the principles of modern refrigeration absorption systems.

Typically absorption systems are used in applications that require less power such as refrigeration in recreational vehicles.
