

Product Name :
Acetylene Pressure Reducer

Product Code :
MU766

Description :

Acetylene Pressure Reducer

Technical Specification :

Acetylene Pressure Reducer
Single stage with frame; safety manometer
Working pressure 1,5 bar
Operation pressure: 20 bar
Connection: G3/8" left / hose fitting 9 mm.
It is designed to mount directly on a bracket bottle with a port. It has a 9 mm hose barb to connect a hose. The outlet pressure needs to be manually set between 0 to 1.5 bar.
Two mounted pressure gauges indicate the inlet and working pressure. The regulator is equipped with a shut-off valve for on/off control.
