

Product Name :
Aggregate Impact Tester

Product Code :
NLAB-EDUSCHOOLEQ203002

Description :

Aggregate Impact Tester

Technical Specification :

The sturdy construction consists of a base and support columns to form a rigid frame work around the quick release trigger mechanism to ensure an effective free fall of the hammer during test.

The free fall can be adjusted through 380 ± 5 mm.

It is for determining the aggregate impact value and has been designed in accordance.

The hammer is provided with a locking arrangement.
