#### **Product Name:**

Alternative Fuel Engine Program With Data Acquisiton

### **Product Code:**

**NLAB-ENGINEERINGLB39004** 

## **Description:**

Alternative Fuel Engine Program With Data Acquisiton

## **Technical Specification:**

Alternative Fuel Engine Program With Data Acquisiton

The software package, is a powerful training aid for any student learning alternate fuels. Graph multiple runs of the, using alternate fuels (propane, methanol, ethanol, etc.), showing the properties of each. Students can actually see which fuel produces more torque! Which burns hotter, propane or alcohol? Information like this can be graphed, and compared on a computer, then saved or printed. Study high performance engines, as the engine allows for different compression ratios and timing to be selected, then Horsepower and Torque to be viewed on screen.
