

Product Name :
Amperes Law Apparatus

Product Code :
NLAB-EDUSCHOOLEQ140002

Description :

Amperes Law Apparatus

Technical Specification :

To demonstrate Amperes Law that when electricity is passed through a magnetic field it produces an electric field, which in this apparatus can be observed by the deflection of the needle.

Consists of two poles of magnets mounted on a stand, on which swings a pointer.

When electric current is passed the pointer deflects on one side and when the current is reversed it deflects in the opposite direction.

Operates on 3-6 Volts DC.

Measurements are approximate
