|----------------------------------------------|---------------------------------------------------|

|                      |
|----------------------|
| <b>Description :</b> |
| Bend Test Equipment  |

|                                  |
|----------------------------------|
| <b>Technical Specification :</b> |
| Capacity                         |
| 200kN                            |
| Hydraulic cylinder travel        |
| 600mm                            |
| Round specimen diameter          |
| 16mm to 76mm                     |
| Plate specimen thickness         |
| 6mm to 25mm                      |

|                    |                                                  |
|--------------------|--------------------------------------------------|
| 90° rotation       |                                                  |
| 180° rotation      |                                                  |
| 360° rotation      |                                                  |
| Specimen width     | 5.5,5.75,6,8,10,12,14,16,18,20,24,28,30,32,36,   |
| Specimen height    | 40,42,48,50,54,56,60,64,66,70,72,75,80,84,88,    |
| Specimen thickness | 90,98,100,110,112,120,126,128,140,154,160,168,   |
| Specimen weight    | 175,192(mm)and etc. 55 types in all. Customized. |
| Power supply       |                                                  |
| Power consumption  |                                                  |
| Dimensions         |                                                  |
| Weight             |                                                  |
