

Product Name :
Drilling Jig For An Annular Disc

Product Code :
NLAB-ENGINEERINGLB17003

Description :

Drilling Jig For An Annular Disc

Technical Specification :

Drilling Jig For An Annular Disc Lab Equipments Manufacturer, Suppliers & Exporters

Technical Description of Drilling Jig for an Annular Disc

The drilling jig model forms part of the extensive course providing an introduction to technical drawing. The didactic approach involves teaching the systematic and transferable learning matter based on an operational mechanism. All parts, made from steel, are precision-manufactured on CNC machines. The surfaces of the steel parts have a gunmetal finish to prevent corrosion. Comprehensive and well-structured instructional material supports wide-ranging use of the model in technical training.

Specification of Drilling Jig for an Annular Disc

Part of the technical drawing course

Practical drilling jig for machining of a bearing cover

All drilling jig components made from steel, precision-manufactured, with gunmetal surface finish

Instructional material incorporates action-oriented and interdisciplinary forms of teaching

Dimensions and Weight of Drilling Jig for an Annular Disc

D x h: 120 x 70 mm (drilling jig)

D x h: 90 x 10 mm (ring)

Weight: approx. 3 kg
