

Product Name :
Educational Lab Centre of Gravity Apparatus

Product Code :
NLAB-EDUSCHOOLEQ34037

Description :

Educational Lab Centre of Gravity Apparatus

Technical Specification :

A simple and economical apparatus for the demonstration of geometrical center of gravity of two-dimensional objects.

Center of gravity of a freely suspended two-dimensional object always lies along the line drawn vertically downward from its point of suspension.

Comprises a clear perspex rod mounted on a base with a suspension screw at the top and four laminas of clear acrylic – 1 each of circular, triangular, square and trapezoidal.

Each lamina has suspension holes along their periphery.

The point of intersection of lines drawn from point of suspension of 2 or more holes of a lamina gives center of gravity of that 2-dimensional lamina.
