

Product Name :
Electronics Circuits Training System Educational Lab

Product Code :
NLAB-TECHNICALAB19001

Description :

Electronics Circuits Training System Educational Lab

Technical Specification :

This equipment is designed for an easy basic learning of general electrical engineering, of electrical installations and measurements. It supplies the means for testing basic laws and principles thanks to the available electrical components that can be connected with each other in different configurations. Symbols and wiring diagrams of each component are clearly represented on the fore panel of the equipment for an easy reference. Connections are made easier by standardized terminals and by very flexible leads of different colours.
