

Product Name :
Field CBR test Apparatus

Product Code :
NLAB-SOILELAB140010

Description :

Field CBR test Apparatus

Technical Specification :

CBR test can be performed not only in laboratory but also in-situ proposes a dual purpose test assembly that, connected to the suitable accessories, can satisfy both needs:

for field testing, it includes all necessary components that, along with vehicle bracket, can be used for in-situ determination of bearing capacity of soils used in road construction.

alternatively, for laboratory testing, our frame can be assembled with the main components, to create a hand operated CBR machine.

Assembly for in-situ testing: The Field CBR test set includes the following components, that can be purchased individually as spare parts:
