

Product Name : Infusion	Product Code : NLAB-CHEMICALSIND20003
Description :	
Infusion	
Technical Specification :	
Infusion is the process of extracting chemical compounds or flavors from plant material in a solvent such as water, oil or alcohol, by allowing the material to remain suspended in the solvent over time. The process of infusion is distinct from both decoction-a method of extraction involving boiling the plant material-and percolation, in which water is passed through the material. An infusion is also the name for the resultant liquid.
