

Product Name :
Magnetic Levitation System

Product Code :
CE415

Description :

Magnetic Levitation System

Technical Specification :

Magnetic Levitation System

This classic magnetic levitation control problem is now presented in a new and innovative form. A 25 mm diameter, hollow steel sphere is suspended in space with visually appealing results and convenient time constants.

Both analogue & digital control solutions are implemented. Convenient sockets on the enclosure panel allow for quick changes of analogue controller gain and compensation components. The equipment is self-contained in analogue mode, with built-in power supply.
