

Product Name :
Parabolic Trough Collector

Product Code :
DM550

Description :

Parabolic Trough Collector

Technical Specification :

Parabolic Trough Collector

Thermal solar collector with parabolic trough mirror and selectively absorbing absorber tube for operation

Evacuated double-walled glass tube to reduce heat losses

Pivoting collector with angular scale

Adjustable collector mount

Connection to the solar circuit in with pump, heat exchanger and storage tank

Temperature, illuminance and flow rate measured

Technical data:

Collector

Parabolic mirror

Trough length: 415cm

Aperture width: 415cm

Mirror surface area: 0,17m²

Focal length: 0,1m

Absorber

Selectively coated absorber tube

Double-walled glass casing to reduce heat losses

230V, 50Hz, 1 phase
