

Product Name : Phase Separation Paper	Product Code : NLAB-CHEMICALSIND19012
Description :	
Phase Separation Paper	
Technical Specification :	
Solvent phase allows passage through the organic phase while retaining the aqueous phase. The process terminates when the entire organic phase has passed through the filter, thereby providing a clean, particle-free organic phase. The phase separator paper can be used for all types of organic solutions, such as ether, petroleum, chloroform, etc.
