

Product Name :
Rope Access Ascender

Product Code :
NLAB-SAFETYLABP20005

Description :

Rope Access Ascender

Technical Specification :

Upper hole through which a karabiner attaches the device to the rope (useful for back-up belays or hauling).

Lower holes for connecting lanyard and installing foot loop with a standard karabiner.

Ascender handle are mechanical devices that attach onto a climbing rope and allow a climber to ascend the rope.

Plastic mould for better handling and isolating protection prevents the ascender from accidentally coming off the rope.

Works on 10.5 - 11 mm braided rope.
