

Product Name :
Spinner 18

Product Code :
NLAB-EDUCNCLAB110024

Description :

Spinner 18

Technical Specification :

Spinner18 CNC turning center meets high torque requirements with an outstanding level of performance at the highest possible level of quality.

The robust machine structure of Spinner 18 supports best surface finish and high metal cutting capability with high accuracy for medium diameter components.

Spinner 18 has big bore spindle to accommodate bigger size jobs through spindle bore.

Machine Standard Feature:-

AC digital spindle drive

Linear motion guideways for X and Z axes

8 station bi-directional turret

3 Nos boring bar holders

AC digital servo drive for both axes

Controlled temperature, humidity, and dust free electronics

Lube oil collector

1 No axial tool holder

Coolant system

Centralised and programmable lubrication

Quality electrical devices with air-conditioned panel

Optional Accessories:-

Hydraulically operated tailstock

Rotating center for tailstock

Rear or side chip conveyor

Hydraulic collet chuck

Renishaw probe for auto tool

Bar feeder with bar puller

Part catcher

Reduction sleeves

Auto door

Servo turret with live tools

Tooled up machine to meet customer need
