

Product Name :
Training System Pneumatics, Electro-Pneumatics and PLC

Product Code :
AR174

Description :

Training System Pneumatics, Electro-Pneumatics and PLC

Technical Specification :

Training System: Pneumatics, Electro-Pneumatics and PLC
Comprehensive trainer for demonstration and exercises in pneumatics, electro-pneumatics and PLCs
2 perforated metal panels for quick component fixing
Standard industrial pneumatic and electro-pneumatic components
Various multi-way valves, pressure, shut-off and flow control valves
Electric limit switch, various proximity switches, solenoid valves, signal board
PLC with programming software
Integrated power supply unit to supply the electro-pneumatics and the PLC
2x maintenance units + distributor block for simultaneous use of both panels
Hoses, cables and tools to construct the experiments
Compressor for compressed air supply, esp. Silent

Technical data:

2 assembly panels, Length x Height: 1100x700mm each
Compressor
Noise level: 45db
Tank: 24l
Intake capacity: 50l/min
Power output: 32l/min at 8bar
Pressure: 8bar

Motor: 0,34kw
PLC with display
Inputs: 8
Outputs: 4
Programming software
Size of components: nominal width 3
Pneumatic hose: 4/2mm
Power supply unit: 24VDC, 4A
230V, 50Hz, 1 phase
